Memo to File
504 College

On February 22, 1990 I called Earl Neuman, Traffic Engineer, about the information we received that the city had a gasoline dispenser at the old police garage at Market and McDaniel. The current parking lot on the southwest corner of the downtown loop. He returned the call on this date with information that there was a 1500 gallon buried tank at the site that was to have been removed when the two building were torn down in the summer of 1970. He found copies of the document that gave an approximate location of the tank and called the contractor who had the project. Mr. George Rensch was contacted and did not recall removing the tank. This office will try to determine if the tank was removed.

A handwritten signature in cursive script that reads "Stephen Short". The signature is written in dark ink and is positioned above the printed name.
